

HYTEC BLACK NITRILE GLOVES, POWDER FREE LARGE

Manufactured from 100% Nitrile (Acrylonitrile-butadiene), our powder free black gloves offer excellent resistance against a spectrum of chemicals, solvents, oils, and grease. The soft formulation ensures an excellent feel, fit, and comfort, and the latex free formulation means that wearers are less likely to develop skin allergies. These gloves are ideal for various applications, including laboratories, printing, automotive, forensics, police, ambulance, medical, tattoo parlors, hairdressers, food handling and much more.
