

Diamond 3D

The **Diamond 3D Urinal Screen** replaces **The Pearl 3D Urinal Screen** in the Glomesh Premier Restroom Products line. Its unique design can be installed on either side, ensuring correct placement every time. It has a more open design and increased spike height, eliminating 99% of urine splash, which saves custodial cleaning time and patrons' pant splatters.

The **Diamond 3D Urinal Screen** is manufactured from a specially engineered copolymer impregnated with an incredibly strong organic odor counteracting compound that is VOC compliant in all NZ/AUS. It features **Diamond & Spike Technology**, with spikes of three varying lengths that help prevent splash back and cross contamination of urine to other areas outside the restroom. **The Diamond 3D** is flexible for a proper fit to any urinal contour. The translucent design allows total viewing of the drain to ensure it remains free flowing as it collects debris before the drain is clogged. **The Diamond 3D** is also safe for use in waterless urinals. The fragrance will last 30 days.
