Category: BUSINESS MACHINES

Tagline

Delivers Cleaner Air So You Can Trust The Air You Breathe.

Catalogue Copy

This filter drum is engineered with an increased amount of activated carbon to help eliminate odours and airborne VOCs. In addition, a True HEPA filter captures common pollutants in the air. Compatible with all TruSens Z3000 (Large) Air Purifiers.

Features and Benefits

- This combination filter has 3 levels of filtration to defend against odours. It includes an activated carbon filter, a True HEPA filter and a durable mesh prefilter.
- The activated carbon filter helps combat cooking and cleaning odours
- It reduces airborne VOCs such as ammonia, acetone and formaldehyde
- The True HEPA filter is used to captures up to 99.97% of common pollutants
- 360 degree filtration draws in air from all directions to collect pollutants from around the room
- The filter is at the core of purifying your air & replacement is essential for optimal performance
- It is recommended to replace the Smoke HEPA Drum every 12 to 15 months, depending on usage
- It is recommended to replace the Odour & VOC Carbon Filter every 3 to 4 months, depending on usage
- Change indicator glows red on your air purifier when the filter needs to be replaced
