

OXYGEN PRO DISPENSER WHITE

The Oxygen-Pro Odour Control System is a top-notch solution for any establishment, offering a cartridge containing 35 ml of pure fragrance oil, approximately 7 times more than a standard metered aerosol can. The dispenser, acclaimed as the 'World's Best Odour Control System,' ensures continuous and precise fragrance delivery through Oxy-Gen Powered technology. Visual and audio alerts for cartridge and battery replacement enhance convenience. Approved by Carbon Footprint standards, the system is environmentally friendly, free from solvents, CFCs, VOCs, propellants, or alcohol.

The Oxygen-Pro Cartridge accommodates eight versatile fragrances suitable for various locations. Compliance with Carbon Footprint standards reflects the product's commitment to environmental friendliness. Neutral-lox, a proprietary odour-eliminator, effectively combats odours like urine, faeces, body odour, tobacco, pet malodour, mould, and mildew.
