

RUBBERMAID 45.7CM MICROFIBER SCRUBBER MOPS

The HYGEN™ Microfiber Super Scrubber Wet Pad is purposefully designed to facilitate the removal of stubborn spots and reach into grout lines for efficient maintenance of a clean environment. Its vertical polypropylene scrubber stripes effectively tackle tough spots and grime in tile grout lines. Featuring double-finished edges and coloured edge tape, this wet pad maintains its shape and durability over time. Tested to withstand 200 launderings to CDC guidelines in hot water (71.1°C) with chlorine bleach, the loopback, made of 100% polyester, securely attaches to the frame even after laundering. The chlorine-resistant dye ensures superior colour-fastness throughout repeated washings.

SPECIFICATIONS:
Fits on HYGEN™ 45.7cm
Quick Connect Frame
