

Work Protection

pomona
we do it better

Head and Face Protection

Pomona's Selfgard™ head and face protection range offers durable, lightweight and economical protection in the food production, food service and medical industries. Manufactured from high quality spun bond polypropylene in various colours and sizes, providing protective single use clothing at competitive pricing.

Body Protection

Pomona's Selfgard™ body protection single use aprons, smocks, coveralls, ponchos and lab coats are available in polyethylene, SMS and spun bond polypropylene materials. Easy to put on, lightweight and comfortable garments used extensively in light manufacturing, laboratory, food service and food production areas.

Arm and Foot Protection

Pomona's Selfgard™ arm and foot protection range, oversleeve and overshoe garments provide the user with lightweight, comfortable and durable personal protection. Available in polyethylene and spun bond polypropylene.

Certification

Polyethylene Clothing FDA Certification

Pomona and Selfgard™ products of low density polyethylene material, when used according to good manufacturing practice to fabricate articles that come into contact with food, comply with the United States Food and Drugs Administration (FDA) Regulation 21 CFR Ch. 1.5 177-1520 Olefin Polymers revised on 6th January 2022.

Code	Description	Material	Type
2100	LDPE Apron	Polyethylene	Low Density
2113	LDPE Sleeveless Smock	Polyethylene	Low Density
2115	LDPE Hooded Poncho	Polyethylene	Low Density
2130	LDPE Oversleeve	Polyethylene	Low Density
2150	LDPE Overshoe	Polyethylene	Low Density
2160	LDPE Elasticated Overboot	Polyethylene	Low Density

Have been assessed and certified as meeting the requirements of:
US code of Federal Regulations, title 21, part 177 (21 cfr 177)

Note: Limitations of use note required
NZFSA Industry Standard 3. Section 17.4 - Protective Clothing. In part 17.4.5.1 a requirement is made for impervious gloves to have proven to have satisfied the composition and conditions of use requirements for indirect food additives (polymers) specified in the current code of Federal Regulations, title 21, part 177 (21 cfr 177). The composition and conditions of use are not required. No other disposable consumable protective clothing requires this as they (smocks, aprons, sleeves and hats etc) are only in intermittent contact with food products. 17.4:7.4 - disposable clothing. disposable aprons, gloves and plastic sleeves shall be discarded after use, when torn or if they cannot be effectively cleaned during use.

Risk Evaluation/Safety Requirement:

Application area: Food Service, Industrial, Health Care, Hygiene sectors.

Duration of use: Transient and short term use.

Instruction of use: Instruction of use not necessary as correct professional usage of the product is self explanatory.

Restriction of use: Easily flammable, do not use near strong heat or open fire. The owner is expected to prove the suitability of the product for its intended use as their own responsibility.
