

MPH28190

FOOD SURFACE SANITISER

Concentrated, Non-Fragranced,
Detergent Sanitiser

DIRECTIONS

For cleaning: General area and equipment cleaning and basic biostatis use at a ratio of 1:50 (2% solution, 20ml per litre) with cold, potable water or as determined best suited for the soiling situation. While minimising atomised diluted solution, either apply onto a clean cloth and wipe over surfaces OR apply directly onto hard surfaces, then wipe with a clean cloth or paper towel.

Spray and wipe applications use at a ratio of 1:20 (5% solution, 50ml per litre) with cold, potable water.

Manual cleaning use at a ratio of 1:50 (2% solution, 20mls per litre) with potable cold or warm water.

For sanitising: At a minimum 2% dilution, allow a minimum contact time of 10 minutes, on cleaned surfaces. After use, surfaces must be thoroughly rinsed with potable water before production starts.

When stored as per label instructions, shelf life for diluted solution is 2 years.

MPI APPROVAL

MPI Approved C41 (All animal product except dairy)

After using this compound, food surfaces must be thoroughly rinsed with potable water before production starts.
